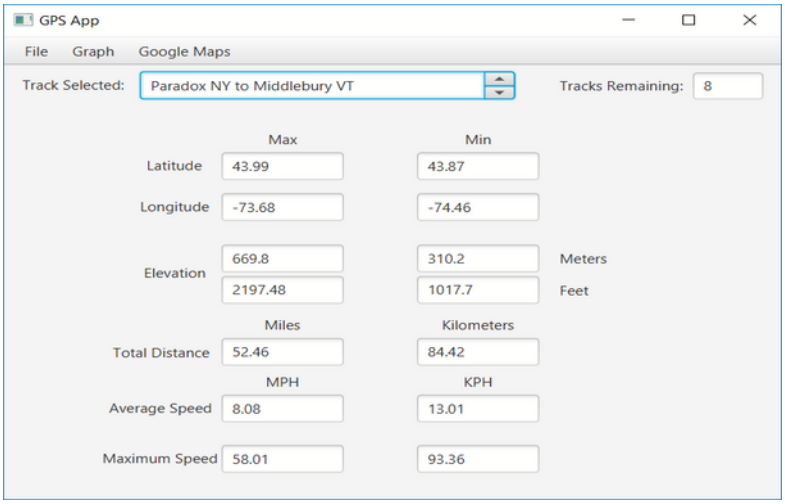
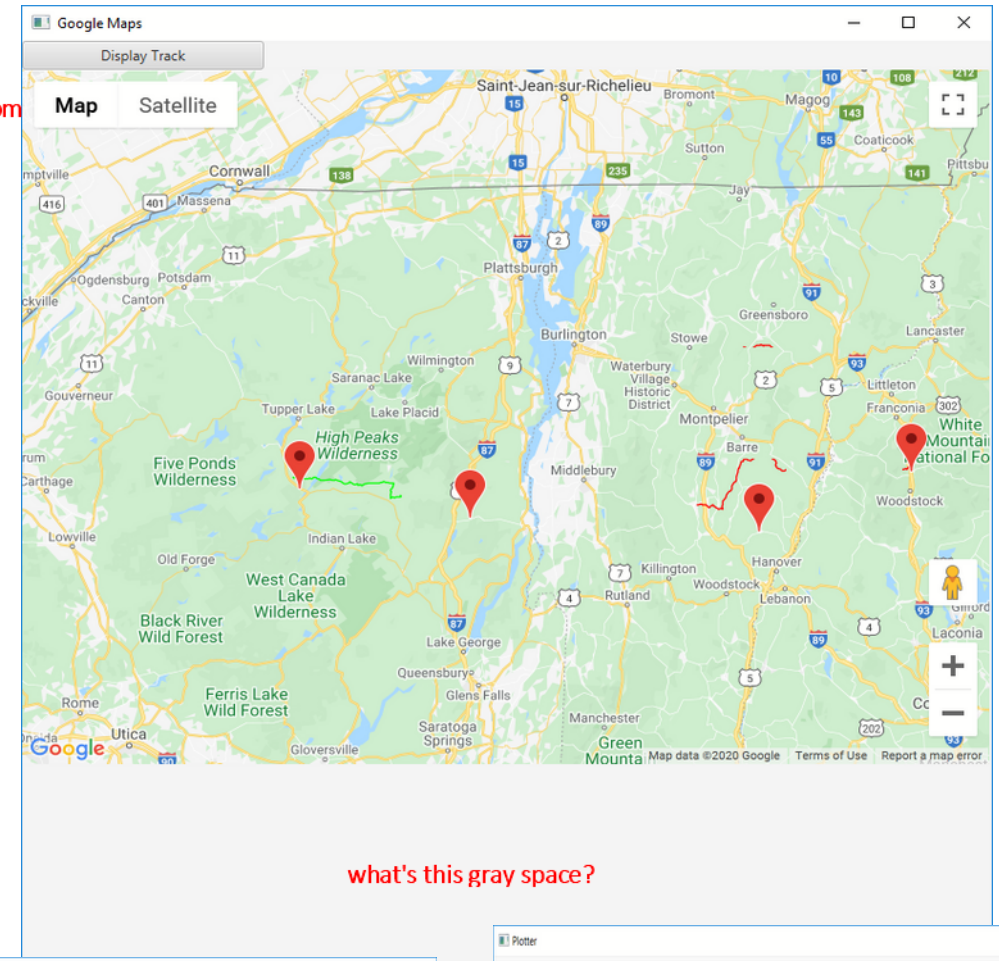
P1
Planned PBIs: 4 (Elev Gain vs Time),
8 (2D Plot w Colors indicating Speed),
11 (2D Plot),
14 (Google Maps)
21 (Calc Metrics on file load)**,
22 (JUnit test best practices)**,
23 (Elev Metrics in ft/m)**

Not completed PBIs: 11, 4
Performance issues on 8
Unknown drawing issues on 14

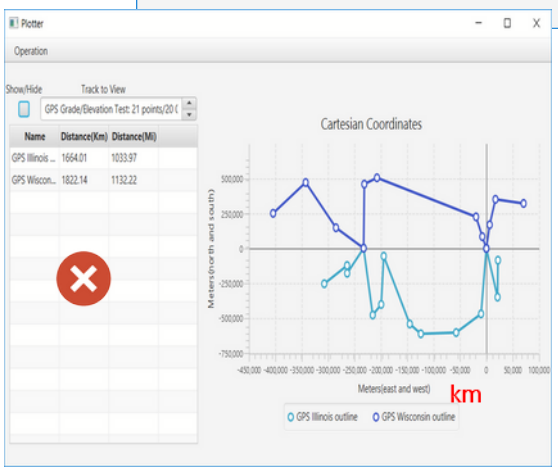


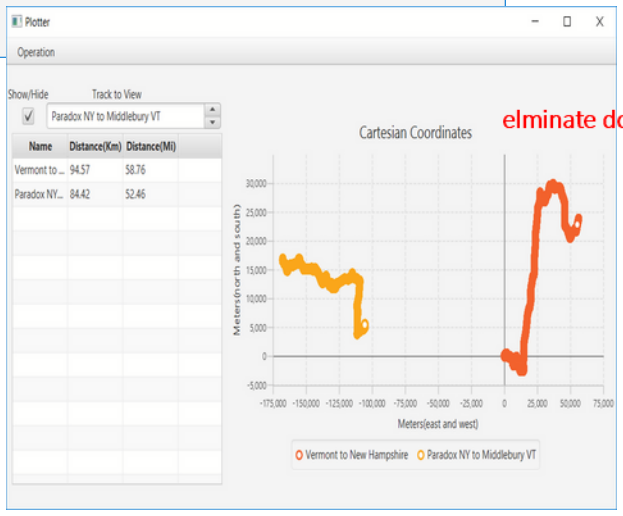
track "moves" with zoom



map is originally centered locally

what's this gray space?

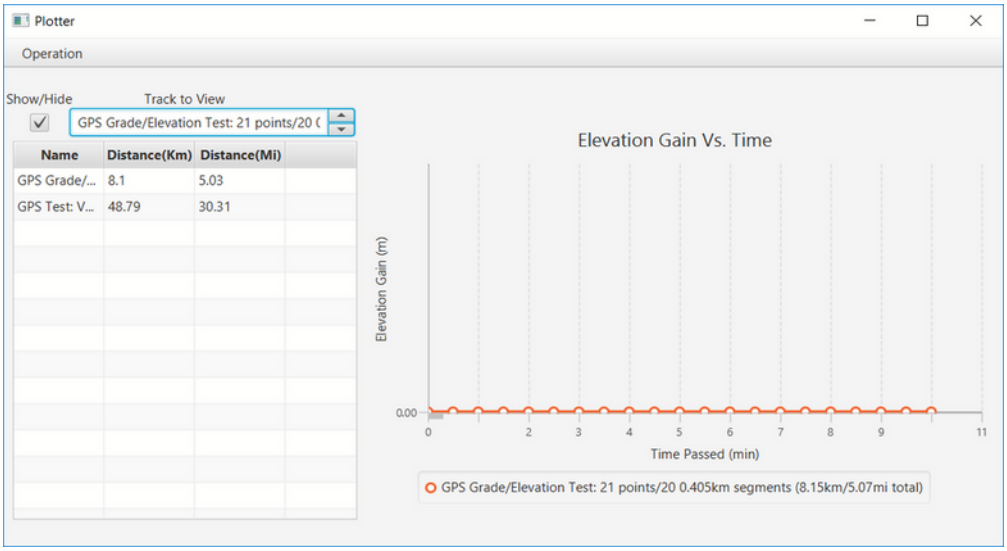




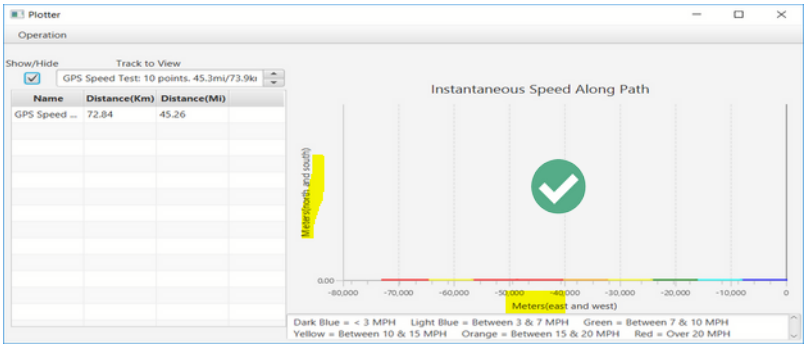
elminate dots to make clearer

Above tracks should look like those in the Instantaneous Speed plot below.

aspect ratio A/C: "plot shall scale the tracks uniformly..."

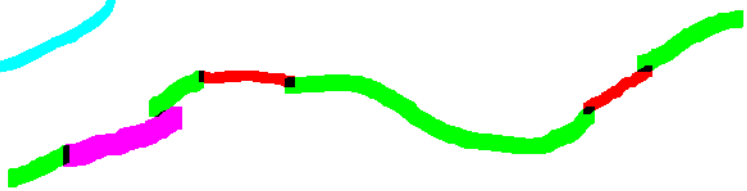


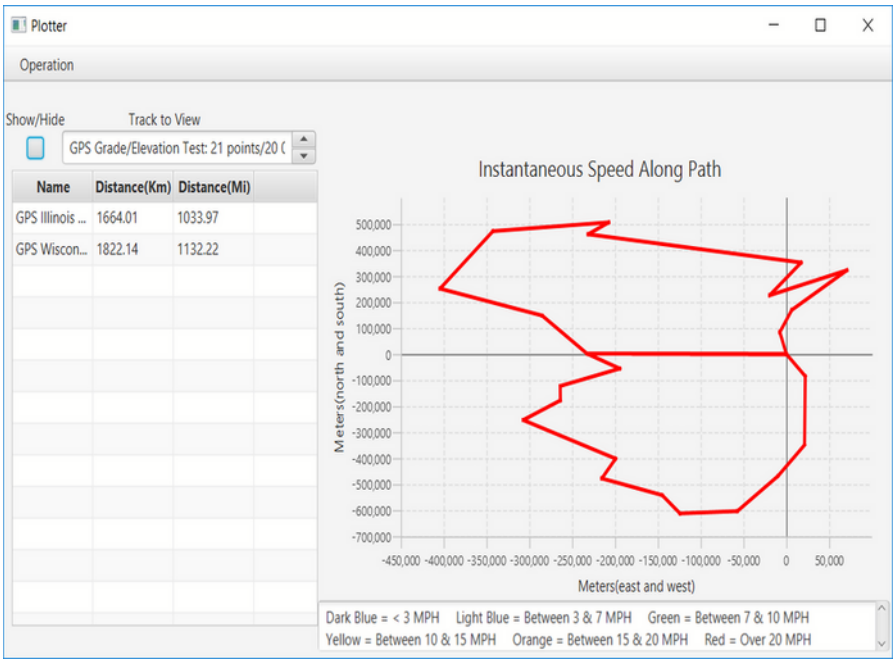
eliminate circles



display km

Becomes non-responsive when selecting speed plot; no plot is generated for large GPX files





Here, the shapes are correct!
